Snow Day Camping

We were disappointed in weather with not enough snow for snow CAVES

On the 19th of January we met at the elks lodge and headed of to our next location. At the other lodge we met at we settled in and had a night of playing and reading. The next morning, after breakfast, we drove to our next location. Once we got there we zoomed up the high hill and started sledding, some people even tried snowboarding on the sleds or making ramps out of snow. After that we headed toward the pizza parlor and ate. Some people played the arcade games and some left even before we got there! So after a long weekend of excitement we all headed for home and got a good night's sleep.
