### *Fort Bragg*

On May 25th we set off for Fort Bragg. On the way we took a break to “fill up our tanks” at Fosters Freeze. After several hours, we finally arrived at the camp site and settled in for some sleep. In the morning, we woke up with thoughts of breakfast, it was over quickly. After we ate, the 50 mile guys headed off for a hike, while the rest of us visited the tide pools. There we saw starfish, sea anemone, and hermit crabs. When we finished the tide pools we headed toward the beach for a few hours then headed to camp for lunch. After that we could travel to the lighthouse, the beach, or fishing. When we finished, we went back to

camp for dinner then we went to the camps campfire. The next morning, we hiked 5 miles to glass beach. Then we headed to the museum or the camp. That night we had our own campfire with many skits. In the morning we woke up and packed up to head home.

### *PLC*

For PLC we planned the great new meetings to come. Then we had a movie time we watched 3 movies with pizza. After the last movie we all fell asleep. When we woke up in the morning we smelled donughts. We had them and some juice while U-571 was playing. When all that was over the 50 mile guys got ready for another hike.
